**Music Masters**  
*new masters by the original artists*

Need a hit song for your campaign?

In love with a track that fits the picture perfectly but the record label wants Megabucks for it?

Not willing to make a creative compromise? No problem.

We're not talking sound-alikes, we're talking master re-records by the *original artists*.

Why pay more for licensed CD delivered by a Law Firm, when you can hang out in the studio\* with the Artists as they recreate the magic?

Imagine... keeping your costs down and being a part of musical history – all without having to kiss goodbye to your original creative vision.

Let McCartney.com put the power of our platinum rolodex to work for you.
