

## Net Engine

### 98% Of People Use Search Engines!

It's been widely reported that 98% of people looking for something online use the top search engines. Let our proven program of hand

submission make sure your web site doesn't get lost in the crowd. Proper listing with these search engines is a key component to attracting visitors! Doing these submissions one at a time by hand is part of the secret!

### Don't Waste Your Money!

If you think you can buy a software program that submits your web site to these top search engines in a few short minutes, we'd be willing to bet you're wrong! Most of these programs use a technique called multi-threading. Most search engines now block programs using this feature.

### Is Your Site Search Engine Compliant?

More than half of the Fortune 500 companies' sites are not even coded correctly, so with our expert techniques, you have a chance to stand above the big guys! Our service includes:

- Your competitors' sites analysis
- Title tag consulting
- Keyword recommendation and insertion
- Meta tag coding with the allowable number of characters and spaces
- HTML coding
- Hidden words
- Search engine and directory submission

### We Don't Need the Keys to Your Site

In the case of sites built in HTML, we can pull the code from the browser, modify it and deliver it back to your Webmaster for upload. You must supply sample pages if your site is a database driven or specially constructed site.

### Our Service Gets Results!

We actually visit each search engine and very carefully submit\* your information by hand to hundreds of top search engines and directories including:
