Product Spotlight

Introducing "NetPresence"

NetPresence is one of the cornerstone products of McCartney Multimedia, Inc, it is our Flagship if you will. This is how the company started, building web sites for Corporations and Celebrities and anyone else who had need for an internet outlet.

Whether you are a small business or an entertainment personality, if you are serious about conducting business online in an ever growing global marketplace, a web site is a definite must. Not having one is like not having a business card, and seriously, would you do business with someone that doesn't have a business card ?.

Design Portfolio

For a complete overview of all Corporate interfaces we have designed over the last 10 years, please click on the graphic to view a Quicktime movie.

(23.4 MB. Broadband or higher recommended.)

Celebrities

Featured Site:
John Cleese
interactive Flash, e-commerce and Content Management System

Entertainment

Featured Site:
Center Theatre Group
for *The Drowsy Chaperone* production

Corporate

Featured Site:
Two Bunch Palms

Don't give your clients the wrong impression. You want to let your clients know that you care about what you are doing and make them comfortable by letting them know that you provide great customer service. Once online trust is established it almost becomes mandatory for you to frequently update not only your products and services but also the general content areas of your web site.

As a rule of thumb, web sites have a 12 - 18 months shelf life and need to be overhauled due to technology changes and increasing end user access capabilities. The Internet market place will only get faster and you will want to keep up with your competitors.

If you entrust your internet maintenance needs with McCartney Multimedia, you will experience and encounter a wealth of internet computer programming knowledge that give your project the fastest turnaround time possible. Take advantage of our 24 / 7 production facility. Be always one step ahead of your competition.
